Chiang Mai - Hirosaki Joint Workshop on Health Sciences 2017

Japan

Hirosaki University
Graduate School of Health Sciences

Shingo Terashima

Department of Radiation Science

"Impact of time interval and dose rate on cell survival following low dose fractionated exposures."

Chihiro Sato

Department of Comprehensive Rehabilitation Science

"Voluntary exercise promotes recovery of motor paralysis after stroke in intracerebral hemorrhage model rats."

Shota Hosokawa

Department of Radiation Science

"Estimation of scatter fraction in PET/CT examination using Monte Carlo simulation."

Kanako Yamanouchi

Department of Bioscience and Laboratory Medicine

"Isolation of Balamuthia mandrillaris from soil samples in Aomori Prefecture."

Mitsuru Chiba

Department of Bioscience and Laboratory Medicine

"Serum miR-375-3p as potential biomarkers of acute radiation syndrome in mice exposed to lethal dose."

Thailand

Chiang Mai University
Faculty of Associated Medical Sciences

Suchart Kothan

Department of Radiologic Technology

"Molecular imaging of cancer cell response to chemotherapeutic drugs emphasized on P-glycoprotein function."

Sompong Sriburee

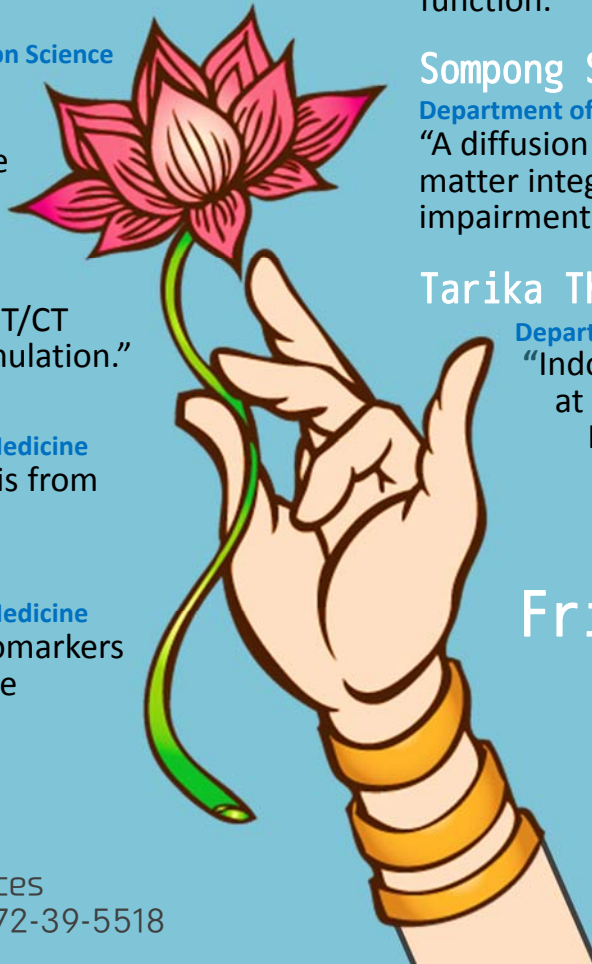

Department of Radiologic Technology

"A diffusion tensor imaging of white matter integrity in mild cognitive impairment in older adults."

Tarika Thumvijit

Department of Radiologic Technology

"Indoor radon survey at Doi SaKet, and Hang Dong District, Chiang Mai, Thailand."

Fri/07/07/2017

From 16:00

To 18:30

Room F-1-2

HIROSAKI UNIVERSITY
Graduate School of
Health Sciences 1F
